

International Adoption Association Presents:

IAA ANNUAL BBQ

This has been a busy year for intercountry adoption, with new legislation proposed, country changes and the ever persistent waiting times!

We are promoting the development of a new Mediation Agency, and an Independent Assessment Provider!

Therefore we really need a day-out!

The IAA Annual BBQ 2009 features a change in venue, excellent food, entertainment for the children, and of course access to a bar.

And by special request - this year it will be a rain-proof BBQ!

The IAA is a voluntary organisation providing support to families engaged in intercountry adoption.
